

## **PVC curtains**

Chill or freezer rooms

DAN-doors PVC curtains for chill or freezer rooms, a simple product which is still characterised by quality and first-rate workmanship.

# PVC curtains

## Chill or freezer rooms

DAN-doors PVC curtains are a cheap and energy-saving solution which may be used in both chill and freezer rooms to minimise the loss of heating/cold. The curtains are available for installation on the wall, the ceiling or as a wall-mounted, sliding curtains. The curtains also reduce the risk of draught, dust and noise.

Typically, our customers choose to install the curtains in larger openings where the doors are sometimes left open by accident. The curtains are produced to fit the desire and needs of the customer and may also be custom-made e.g. with a larger number of overlapping, sliding curtains, so that only part of the opening is left open.

### Dimensions

As per customer request, but at 5000 x 5000 mm as a maximum. For custom-made solutions, please contact DAN-doors.

### Material

Soft PVC of 2 or 3 mm, respectively.

### Strip types

MB2000 – 200 x 2 mm for chill or freeze.  
MB3000 – 300 x 3 mm for chill or freeze.  
MB2001 (Sliding) – Available in both dimensions.

### Overlap

MB2000 – 50 or 100 % overlap.  
MB3000 – 33 or 66 % overlap.

### Installation
