

Datasheet – MH0602I

Hinged 60 mm 2-leaf industry door (Heavy industry)

Technical description - Overview

Standard max. width	2800 mm
Standard max. height	2500 mm
Frame	1,5 mm or 2 mm stainless steel
Insulation	PIR
Hinges	Stainless steel with "non-friction" bushing
Door leaf thickness	60 mm

N.B! Measures which surpasses std. Max width and height, please contact DAN-doors!

Component	Material/description
Door leaf's material	<ul style="list-style-type: none"> • 1.0 mm Stainless steel AISI304 • 1.0 mm Galvanized steel • 1.0 mm White PVC (Food safe) <p>If you want other surfaces, please contact DAN-doors.</p>
Frame	<ul style="list-style-type: none"> • 1,5 mm stainless steel • 2 mm stainless steel
Gaskets	<ul style="list-style-type: none"> • Approved for use in food industry
Handles and lock cases	<ul style="list-style-type: none"> • D-handle with long sign in stainless steel • DD-handle – 1. points handle, 2 points handle, or 3 points handle • Hanger handle and clutch thrust plate • M-U 1216 lock case w. handle/long shield (latch) (565) / Night latch M-U lock case 1241 (9788) • M-U 1241 lock case (9788) / cylinder/catch / plac. In height xxxx • M-U 1216 lock case w. handle/long shield (latch) (565) • M-U 1216 lock case w. handle/long shield (n. locking) (1498) • M-U 1222 lock case w. handle/long shield (snap lock) (560) • M-U 1216 lock case w. handle/long shield (n. closing) (1498) / DD panicbar back • M-U 1222 lock case m. handle/long shield (snap lock) (560) / DD panicbar back • M-U 1222 lock case m. handle/long shield (snap lock) (560) / Night latch M-U lock case 1241 (9788) <p>If you want other solutions, please contact DAN-doors.</p>

	Extra equipment
Water canopy	Recommend for outside doors
Window	Standard sizes: <ul style="list-style-type: none"> • 150 x 300 mm • 400 x 600 mm • 500 x 600 mm
Window frame	<ul style="list-style-type: none"> • Anodized aluminum • Stainless steel
Glass	Minimum 2-layer thermo window
Door closer	<ul style="list-style-type: none"> • Door closer Geze 4000 • Geze 5000 • Automatic - Geze Powerturn with safety fillets front- and backside <p>If you want other solutions, please contact DAN-doors.</p>
Kickplates	Material – Stainless steel AISI 304 <ul style="list-style-type: none"> • Door width x 300 mm (standard) • Door width x 800 mm (Standard)
